Software Tools and Data Forms for Equipment Commissioning, Testing, and Maintenance Projects.

Software Tools and Data Forms for Equipment Commissioning, Testing, and Maintenance Projects

Designed to Fit Every Need

Whether you are a Maintenance Contractor, an Engineering Firm, a Large Facility with multiple buildings, or a Service/Testing Company; Single User through hundreds of users in multiple locations - ePowerForms has the power and features that are right for you.

Our Data Collection Software and Forms simplify your Equipment Commissioning, Testing, and Maintenance Projects. ePowerForms is a suite of Software Tools and Industry Standard Forms that speed data collection time, improve data consistency, and simplify the data review and reporting processes.

Comprehensive

ePowerForms includes everything you need to effectively collect, review, and report on your test and maintenance data. Data Forms, Job Tracking, Reviewer Tools, Robust Reporting, and more are all included.

Fully Customizable to meet your exact needs.

Easy to Use

ePowerForms is very powerful, yet it is quite easy to learn and use. From Data Collection through Final Reporting, we've designed every feature to be simple to use.

PLUS... We include full training for all your users at no added cost.

Affordable

ePowerForms is easily the most affordable solution on the market. But don't let its affordability fool you - ePowerForms is packed with every feature you'll need.

No Annual Fees for maintenance, support, or licenses.

Feature Packed

"Every feature you'll need for managing all your data collection and reporting."

ePowerForms is packed with every feature you need for your commissioning, testing, and maintenance projects. From entering data onto our professionally designed forms, to reviewing results, through automated generation of final reporting documents, ePowerForms provides all the tools you'll need.

- ✓ Over 250 professionally designed forms are included, covering nearly every device type

- ✓ Data entry is simple with our intuitive data entry screens that exactly match the printed forms.

- ✓ A powerful Forms Editor is included, allowing you to edit and create data collection forms that meet your exact needs

- ✓ With one click, generate an entire project report including cover page, table of contents, summaries, data forms, and more.

- ✓ Create custom Reports and Reporting Packages from any data with our powerful, full-featured Report Designer.

- ✓ Data is stored in small, flexible databases that allow data storage configurations to meet your company's exact needs.

- ✓ Easily merge data between users, between project leads, between remote offices, or with a common storage location.

- ✓ **Multi-User -** All data entered by individual users can be easily merged with data from any other user, your project leads, your remote offices, or with a central database. ePowerForms databases are small and very portable, making them easy to send or upload.

- ✓ **Full Customization -** Powerful Form and Report Editors are included with ePowerForms. Customize any form or report, add new forms, add custom reports, or create automated reporting packages.

Nearly every feature of ePowerForms is fully customizable. Let us know what your unique needs are, and we'll work with you to create a system that matches your specific business model.

Features Overview

ePowerForms

Perform all your project data collection, job tracking, reporting, reviewing, and follow up through one, low cost, reliable system.

From entering test and maintenance data onto our professionally designed electronic forms, to organizing and reviewing results, through automated generation of final reporting documents, ePowerForms provides all the features you'll need.

And... Nearly every feature can be customized to meet your unique needs and business model.

Key Features

- **Reliable, Easy to Learn, Simple to Use System**
- **Feature Packed Data Collection System**
- **Complete Data Organization and Review**
- **Over 250 Professionally Designed, Customizable Forms Included**
- **Robust, Fully Customizable Reporting System**
- **Fast and Easy Data Management and Data Synchronization**

DATA COLLECTION

The ePowerForms Test and Maintenance Data Collection system is packed with features designed to speed data entry time and ensure consistent data entry.

Hundreds of pre-designed forms are available for collecting test and maintenance data. And, we include a Forms Designer that allows you to customize the forms or build your own.

Our fully customizable data collection forms provide for easy entry of your test and maintenance data. Many tools are included that make data entry fast, consistent, and reliable.

These are just a few of the many data collection features that are available in the ePowerForms system.

- Data Entry Screens Exactly Match the Forms
- Auto-Calculations and Temperature Corrections Included
- Auto-Generated Charting
- Show/Hide/Highlight any Form Field
- Customize Tabbing Order to Match Your Testing Process
- Procedures and Reference Docs can be Included in Any Form

PROJECTS TRACKING

ePowerForms gives users direct access to project information such as customer, site and contact details; chronological job notes, work scope, and recommendations and conclusions.

Job related drawings, images, and more can also be stored directly within ePowerForms.

Project documents such as proposals, estimates, project drawings, site images, submittals, and more can also be included.

Most project information is easily incorporated into ePowerForms Reports, making assembly of your final project documentation a breeze.

Projects Tracking Features:

- Customer, Site, Contact, and Job Notes Details
- Work Scopes, Recommendations, and Conclusions
- Easily attach Documents, Images, Drawings, etc.
- Jobs can be closed to prevent further editing
- Attach nearly any document types
- Full word processor formatting and copy/paste features
- Fully integrates with ePowerForms Data Forms and Reports

DATA REVIEW

The ePowerForms dashboard makes organizing, tracking, and reviewing your test and maintenance data simple. From this one screen, we provide you with all the tools and features you'll need to manage, review, and report on your test data.

Quickly group, sort, filter, and find just the test results you want to review. Easily generate follow-up jobs and reports based off your selected data, and your chosen grouping and sorting layouts.

Data Review Features:

- Quickly filter test results by just the data you need
- Drag and Drop Data Grouping and Sorting
- Easily Generate Follow-up Jobs based on Selected Data
- Printing and Reporting matches the Data Group, Sorting, and Selections
- Quickly Find any Data with our Powerful Search Features
- Create Custom Screens to Display Unique Data from Specific Forms

REPORTING and PRINTING

ePowerForms includes a powerful, full-featured reporting system that allows users to create and print reports and project documentation that exactly meet the specific job requirements.

Unlimited report templates can be created, and each report can be fully customized. Reports can contain data from any ePowerForms module and nearly any external data source.
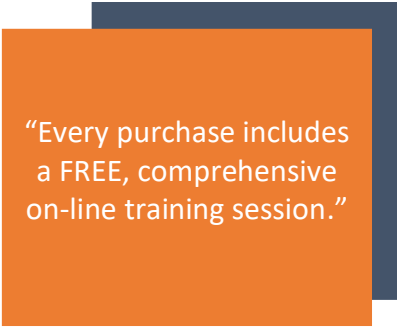

Generate robust final documents and status reports with a single click. Reports can contain any data from your project including cover page, job details, table of contents, deficiencies and comments, test forms, and much more.

Reporting and Printing Features

- Create and Run Unlimited, Customizable Reports
- Save Reports and Data Sheets to PDF Format with One Click
- Easily Export any Report to Word Processing Format
- Generate Reports Based on Data from Your Selected Sheet Data
- Reports can Include Data from Nearly Any Data Source
- Create Macros that Run Multiple Reports with a Single Click
- Project Documents can be Included in Any Reporting Package
